SUMMARY

MARTEL GMBH and the project partners are processing your data in compliance with the GDPR in the context of the TEADAL project to:

- ➔ register you to the TEADAL events and to populate participants lists,
- ➔ where applicable, set up networking activities for event participants,
- ➔ inform you about TEADAL activities,
- ➔ provide access to resources,
- ➔ promote and document the TEADAL activities,
- ➔ produce aggregated statistics

Your data will be kept no longer than five years after the completion of the project. You might be photographed or recorded for documentation and promotional purposes on the project and project partners web and social media handles. Data transfers outside the EU might happen, including to project partners located outside the EU, who will comply with the GDPR and to third parties. You have a right to view personal data, to rectification and, in some circumstances, to restriction of processing and to object. Contact info@teadal.eu

INTRODUCTION

You are invited to participate and contribute to the activities of the TEADAL project that is co-funded by the European Commission under the Horizon Europe Programme.

Your participation is voluntary, you are free to withdraw at any time before or during the activities you are involved in by contacting the people mentioned in the current form.

Before you decide whether or not to take part, please take some time to read the following information carefully. Please, feel free to ask questions if more information or clarifications are needed using the contact details in the last section of this sheet.

TEADAL SCOPE

Data analytics is one of the main cornerstones in many enterprise architectures and the data lake paradigm is more and more adopted to assist organizations in taking reliable, accurate, and fast decisions. Although the initial approaches to address these issues saw the data lakes as the evolution of data warehouses to be implemented on-premises, cloud providers are nowadays including in their offerings platforms able to setup and run them. Nevertheless, the increasing amount of data generated at the edge and the need to enable data sharing among organizations are posing new challenges in terms of performance, energy efficiency, and privacy/confidentiality which can be properly addressed with data lakes which are deployed along the whole computing continuum as well as building a federation of such data lakes.

The ambition of TEADAL is to provide key cornerstone technologies to create stretched data lakes spanning the cloud-edge continuum and multi-cloud, providing privacy, confidentiality, and energy-efficient data management. The TEADAL data lake technologies will enable trusted, verifiable and energy-efficient data flows, both in a stretched data lake and across a trustworthy mediatorless federation of them, based on a shared approach for defining, enforcing, and tracking privacy/confidentiality requirements balanced with the need for energy reduction.

The project will contribute to the following outcomes expected by **HORIZON-CL4-2021-DATA-01-01 - Technologies and solutions for compliance, privacy preservation, green and responsible data operations (AI, Data and Robotics Partnership) (RIA)**.

- ➔ **FUNDACIO PRIVADA I2CAT, INTERNET I INNOVACIO DIGITAL A CATALUNYA** – Partner, Spain
- ➔ **BOX2M ENGINEERING SRL** – Partner, Romania
- ➔ **REGIONE TOSCANA** – Partner, Italy
- ➔ **MARTEL GMBH** – Associated Partner, Switzerland
- ➔ **TERRAVIEW GMBH** – Associated Partner, Switzerland

The data collected are stored on Google Drive¹, managed by **UBIWHERE LDA**.

The event is organised in the context of the TEADAL project, which is funded by the European Union, your personal data (e.g., name, affiliation and email address) might be shared with

¹ Please note that Google Drive has its own Privacy Statement: <https://www.google.com/drive/terms-of-service/>

authorised staff members from the European Commission. This work has received funding from the Swiss State Secretariat for Education, Research, and Innovation (SERI)².

The purposes of this data processing are:

- ➔ to register you to the TEADAL events and meetings and to populate participants lists,
- ➔ where applicable, to set up networking activities for event participants,
- ➔ to inform you upcoming events, meetings, workshops and other activities organised in the context of the TEADAL project,
- ➔ to provide access to resources linked with the TEADAL project and events,
- ➔ to promote and document the TEADAL activities,
- ➔ to produce aggregated statistics to monitor the performance of the project.

In addition, personal data are collected based on your explicit prior consent, in case you decide to interact on social media, or on interactive platforms used during the event (e.g. *Particify*): photo or video materials depicting you, your social media account handles, comments you decide to share, feedback, questions, contributions during the event or meeting.

The meeting might be audio and video recorded or web-streamed, and pictures might be taken for live streaming and live or future dissemination on the project and the project partners' web and social media outlets. This means that you might be photographed or recorded and that photographs and recordings of you might be taken during the event and might be used for online and offline communication activities related to the TEADAL by the project partners listed above.

Third party tools are used to organise the event (user registration, interactions during the session and data storage):

- ➔ The participant registration platform used is Ti.to events registration management system. Terms of use and Privacy Policy: <https://ti.to/privacy>
- ➔ Google Drive is used to store participants and contact lists, privacy statement: <https://www.google.com/drive/terms-of-service/>
- ➔ Particify live interaction platform, terms and conditions: <https://particify.de/datenschutzerklaerung>
- ➔ Slido live interaction platform, terms and conditions: <https://www.slido.com/terms>
- ➔ Video streaming/conferencing systems might be used to web-stream the event. Software tools used will be one or a combination of the following:
 - Zoom - <https://www.zoom.com/en/trust/privacy/privacy-statement/>
 - MS Teams - <https://www.microsoft.com/en-gb/privacy/privacystatement>

Your personal data will not be transferred to third countries or international organisations, except for data collected by the above-mentioned services, based on their terms of service and privacy statements, listed above, and to partners of the TEADAL project based outside the European Union (listed above). The partners will ensure a level of protection of personal data in line with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal

data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

PURPOSE AND DURATION

Your contact and personal data will be collected with the following purposes:

- Registration and listing of event participants
- Photo, video and audio recordings documentation of the event
- Statistics and indicators to assess the project performance (aggregated data)
- Creating and maintaining contact information lists to send updates and information on the project (consent is optional)

The data will be kept for as long as it is considered as necessary to fulfil the project contractual obligations and no longer than five years after the completion of the project.

COLLECTED INFORMATION

By participating in this activity, you will be asked to provide us with the following information:

- ➡ Name, surname, email address, gender, organisation, type of organisation, country, affiliation to Associations, Topics of Interest,
- ➡ Photograph, video recorded / interview, personal statement on specific issues / topics / questions, etc. and any consequent communication and promotion activities on behalf of the project.

RIGHTS UNDER THE GENERAL DATA PROTECTION REGULATION

Right to view personal data (right of access) You have a right of access to the data that are processed about you and to various other information.

Right to rectification (correction) You have the right to have inaccurate personal data about you rectified.
